Hey Cynthia – Doing a little email cleanup and was wondering if Anthony Edwards ever sent us the paper he had mentioned when we met with him?

Yes, I'm hoping this email will remind him! If not, I'll follow up with him.

Wasn't Anthony Edwards going to provide some contact information on a couple of people?? And didn't he say he had a paper he was going to send to us on how to make gov't processes more conducive to interacting with "real" people?

Hello, Anthony.

Paula and I would like to thank you for meeting with us last week. We very much appreciate the time you took to share your thoughts about mining impacts in the Upper Animas Basin and related community concerns. The information you provided will be very useful to both of us.

Please feel free to contact me if you have questions of us.

Best regards,

Cynthia
